

Jonas's Community	Our Community
All the children are grouped according to their age and receive ceremonies.	
The Old are placed in houses and taken care of by other people.	
Committee members select jobs for the citizens. They receive training.	
The old, imperfect new children, and rule breakers are set for release.	
The "released" are put in a box and disposed of.	
People aren't allowed access to certain books and music.	
Jonas's community does not have seasons and certain weather (snow or rain) because of climate control.	
People are required to wear similar things, no fashion.	
People are often not given choices in their daily routines.
